

Business Opportunities in Dry-Cleaning

The dry-cleaning industry is experiencing steady yearly growth. The future is bright with the increasing number of garments sold with "dry-clean only" labels and the diversification which the professional dry-cleaning plant now offers the customer such as:

- Dry & Wet Cleaning
- Shirts & Laundry Service
- Drapes
- Suede & Leather Cleaning
- Alterations
- One Hour Service

A Profitable Investment

A dry-cleaning plant can be a profitable investment for a number of reasons:

- It satisfies a basic need in the community
- Low downside risk and a relatively high rate of return
- No accounts receivable - it's an all-cash business
- "Recession proof"
- More volume, more profit
- Few regular customers needed to be successful

Complete Dry-Cleaning Plant Package for New Owners

Today's dry-cleaning plant is efficient with energy saving and labor saving equipment designed to produce the best results at minimal costs. Sussex Equipment offers a new dry-cleaning plant plan, which gives the owner a complete package including:

- Site selection
- Layout and design
- Quality equipment
- Turn-key operation
- Training
- Service and maintenance

Financing

Sussex Equipment has several financing plans available. With as little as \$30,000 down, assuming your good credit we can get you started.

The present dry-cleaning plant can be operated with absentee management as well as being the ideal business for the entrepreneur who wishes to expand into a multiple store operation.
